PROFESSIONAL SUMMARY

Computer Science graduate and Lecturer with experience teaching Computer Science, Mathematics, and Physics. Strong academic foundation in programming, algorithms, data structures, databases, artificial intelligence, and software development. Experienced in classroom instruction, lesson planning, curriculum delivery, student assessment, examination preparation, and academic mentoring. Combines teaching experience with practical expertise in Python, AI, Machine Learning, Computer Vision, and modern software technologies to deliver engaging and technology-driven learning experiences.

TEACHING EXPERIENCE

Read public School

2026 – Present –

Lecturer – Computer Science

- Teach Computer Science through structured lectures, practical demonstrations, problem-solving activities, and student-centered learning approaches.
- Prepare lesson plans, classroom activities, assignments, assessments, quizzes, and examination material according to curriculum requirements and learning objectives.
- Explain programming fundamentals, algorithms, data structures, computational thinking, and problem-solving concepts through clear step-by-step examples and practical applications.
- Evaluate student performance through classwork, quizzes, assignments, practical activities, and examinations while providing constructive academic feedback.
- Mentor students in understanding challenging technical concepts, developing programming skills, and improving their analytical and problem-solving abilities.
- Use digital tools, programming environments, demonstrations, and technology-assisted learning resources to make technical concepts more accessible and engaging.

Private Tutoring

2023 – Present –

Computer Science, Mathematics & Physics Tutor

- Provided personalized instruction in Mathematics, Computer Science, and Physics, focusing on conceptual understanding, problem solving, and examination preparation.
- Designed individualized lesson plans and adapted teaching strategies according to students' learning levels, strengths, and knowledge gaps.
- Mentored students through challenging mathematical and technical concepts using practical examples, visual explanations, step-by-step problem solving, and technology-assisted learning.
- Supported students in examination preparation by developing practice questions, reviewing concepts, and identifying areas requiring additional attention.

EDUCATION

Sukkur IBA University

Sukkur, Pakistan

Bachelor of Computer Science

Graduated: June 2026

– CGPA: 2.86 / 4.00

– Sindh Education Foundation Scholarship Award – Sukkur IBA University (2022)

COMPUTER SCIENCE & TEACHING SKILLS

- **Computer Science:** Programming Fundamentals, Python, JavaScript, Dart, Object-Oriented Programming, Algorithms, Data Structures, Database Fundamentals, Web Technologies
- **Flutter:** Flutter Development, Dart, Mobile App Development, Flutter UI, REST API Integration, Firebase Integration
- **Teaching:** Curriculum Delivery, Lesson Planning, Classroom Instruction, Concept Explanation, Student Assessment, Examination Preparation, Assignment Design, Student Mentoring
- **Programming & Development:** Python, JavaScript, Dart, Flutter, React, Node.js, Express.js, HTML, CSS, REST APIs
- **Databases & Tools:** MySQL, MongoDB, Firebase, Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Kaggle
- **AI & Machine Learning:** TensorFlow, PyTorch, Scikit-learn, OpenCV, Deep Learning, Computer Vision, NLP, Generative AI, Prompt Engineering
- **Professional Skills:** Communication, Collaboration, Problem Solving, Adaptability, Patience, Leadership, Time Management

WORK EXPERIENCE

DevelopersHub Corporation <i>Frontend Developer Intern</i> – Developed responsive user interfaces using HTML, CSS, and JavaScript. – Collaborated with the development team to improve website performance and UI/UX design. – Assisted in debugging frontend issues and implementing new features for web applications. – Worked with version control tools and followed modern frontend development practices.	Jun 2025 – Aug 2025
CS Society – Sukkur IBA University <i>Leadership Role</i> – Coordinated a team of tutors to provide personalized academic assistance and problem-solving support. – Part-time Job at STS (SIBA Testing Service) – Freelance Developer	Nov 2024 – 2026

PROJECTS

Cattle Marketplace Mobile Application with AI-Based Weight Estimation <i>Flutter App Developer</i> – Developed a mobile marketplace application that connects cattle sellers with buyers for livestock trading. – Engineered cloud inference pipelines to deploy the model seamlessly using Hugging Face Spaces for real-time API availability. – Integrated the AI inference layer into a full-featured mobile marketplace application backed by Firebase for secure user data and transactional flow.	Jan 2026 – Present
Responsive E-Commerce Store <i>Full-Stack Web Developer</i> – Developed a fully responsive e-commerce website using React and Flutter. – Implemented product search, cart functionality, and payment integration.	Jan 2025 – Feb 2025
Aspect-Based Sentiment Analysis <i>AI Developer</i> – Built an aspect-based sentiment analysis system using Python and NLP techniques. – Generated insights from product reviews to improve customer experience.	Feb 2025 – Apr 2025

CERTIFICATES

– Google AI Essentials Specialization (Google)	Jun 2026
– Google Prompting Essentials Specialization (Google)	Jun 2026
– HTML, CSS, and Javascript for Web Developers	Aug 2025
– Introduction to Java	June 2023
– Basics of Management	Sep 2026
– Maximize Productivity With AI Tools	Sep 2026
– How to write a research paper	Sep 2026

AWARDS AND HONORS

- Sindh Education Foundation Scholarship Award – Sukkur IBA University (2022)
